Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 26 October 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 10 and 14 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In claim 10, the limitation that the movable casing "completely surrounds" the stem is not supported by the originally filed disclosure. In claim 14, the limitation that the locking device "is a bracket to the module" is not supported by the originally filed disclosure. Each limitation represents new matter.

Claim 18 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. It

is unclear how the spring-loaded friction locks function to allow the footrest to be slidably adjusted upwards while preventing the footrest from moving downwards.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 15-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In line 15, it is unclear if Applicant intends to positively claim the combination of a footrest and a child's seat, or the subcombination of a footrest for use with a child's seat. Line 1 appears to set forth the subcombination. Note the recitation "a footrest for a child's seat". Line 2 appears to set forth the combination. Note the recitation the rails of the footrest "received in guides integrated in the seat". The claims have been treated as if the combination is intended to be claimed. Clarification in the claim language is required. Claims 16-20 are indefinite since each depends from an indefinite claim.

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. The movable casing "completely surrounds" the stem, and the locking device "is a bracket to the module" have not been shown.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 15, 16, 17, 18, 19 and 20, as best understood with the above cited indefiniteness, are rejected under 35 U.S.C. 102(b) as being anticipated by Komori (2904102). Note the rails (30), guides (26), locks (31, 32) that are a pin and hole system, wherein the locks are frictionally engage the rails, handles (end of 31, as shown in Figure 2), and opening between the rails (see Figure 1).

Claims 15, 16, 17, 18, 19 and 20, as best understood with the above cited indefiniteness, are rejected under 35 U.S.C. 102(b) as being anticipated by McClary (1334771). Note the rails (10, 11), guides (15, 16), locks (13, 17, 18), that are a pin and hole system, wherein the locks frictionally engage the rails, handles (18), and opening between the rails (see Figure 2).

Allowable Subject Matter

Claims 1, 8, 9 and 11-13 are allowed.

Response to Amendment/Arguments

Applicant's response has been fully considered. Remaining issues are described in the above sections. Claims 10 and 14 have not been considered allowed since each is rejected under the first paragraph of 35 U.S.C. 112. Applicant's amendment has necessitated new grounds of rejection. Arguments regarding the previously applied prior art of record are now moot.
